## Certificate in Psychology

The aim of this programme is to introduce learners to a range of perspectives within Psychology that focus on how identity develops and how we interact with others. The field of Psychology is essentially the study of how we think, feel and behave. This course will be interactive and applied. It is an opportunity for you to reflect on who you are, how you have become and to become conscious of how we impact others.

If you have a curiosity about people and both a desire and openness to understand, then this is the course for you!

The Programme Leader, Marie Walsh, is a Lecturer at LIT and has worked in teaching for over 20 years. She is a member of the Psychology Society of Ireland and her research is on how women experience positive growth from the experience of cancer, She loves cats !

---
